B. N. ELDER.
For Inferior Director,
JAMES BUFORD.
For County Surveyor,
WILLIAM SHARON.

A bet is a fool's argument.
Harry Rabbits is Clark county's "Little Giant."

The magnetic man of Ohio materializes grandly.
One hundred first voters have joined the Akron Harrison and Morton club.

Mr. William P. Huffman, a prominent and veteran citizen of Dayton, has just died.

The campaign of 1888 will not lack for orators. Springfield can furnish a dozen or so.

General Harrison has received a very warm congratulatory letter from Senator Sherman.

Is the American workingman to be knocked on the head by the Coddin club? We say, no.

The telegraph correspondence between Foraker and Sherman, at Chicago, was very creditable to both.

A great many people will be in Cincinnati tomorrow. The Fourth will be a great day in the Queen City.

Shall the American people protect themselves or protect England? That is the political question of the hour.

The Ohio delegation at Chicago is triumphantly vindicated. Now let us have peace, and let us have a rest.

Governor Foraker, as well as Chaney Dewey, is very polite to newspaper men. He likes them. They like him.

What's the matter with Sherman and Foraker? Nothing is the matter with these two gentlemen. They are all right.

The republicans of Tennessee say that, with proper organization, they can carry their state for Harrison and Morton.

Senator Sherman and Governor Foraker will join in a centennial celebration of the fourth of July, tomorrow, at Cincinnati.

It is evident that George Rawlins has a future, both behind him and before him. He seems to be equal to almost any emergency.

The Ohio Centennial at Columbus is slowly materializing. It will be the greatest and only show of its kind on the earth.

The Citizen, Chicago, the Irish World, New York, and the American Celt, St. Louis, are Irish papers that support Harrison and Morton.

Congressman Cannon, chairman of the republican congressional caucus, thinks Harrison and Morton will carry every northern state.

Grover Cleveland will hardly be missed Cincinnati tomorrow, but he will be missing from the White House on the evening of March fourth next.

It is time the American people knew all about the American flag. This is the rule: The flag is thirteen stripes wide and twenty-one stripes long, and it is twice as long as it is wide. The union (blue) is seven stripes square. There is one star for each state in the union. It may be made of bunting or silk, and no family should be without it. When properly made, it will keep in all climates.

A GREAT DEMONSTRATION.
The demonstration made by the republicans in this city Monday night, was remarkable for the spirit manifested. It was a very large gathering, but was mostly made up of the people of Springfield. It was a spontaneous demonstration, also. No effort had been made to "work it up." It worked itself up. The very sight of the crowd was in itself inspiring and the manner in which the speakers of the occasion were received was prophetic of the great uprising that is now impending. The republican cause is the cause of the people, for the people have already adopted it. No such political meeting was ever held in this city, at a correspondingly early period in the campaign. But it is a drop in a bucket to the tremendous outpourings that are to come.

Much good sense is shown by the Springfield (N.Y.) Republican in its announcement that it will pay little attention during the campaign to the third party prohibition malignants. The significance of the announcement is in the fact that the Republican is a temperate journal.—Cincinnati Commercial Gazette.

Thanks. The prohibitionists do not constitute a factor in this campaign. Then they draw their recruits from both parties in such proportions as not to disturb their relative strength. The battle of the year is to be fought between the two great parties on the issues of a free ballot and protection to American industries.

Major General Thomas Harrison, of Cromwell's army, was one of the judges who condemned Charles I to death. He was a republican, and he paid the penalty of his patriotism on the headman's block. He was the great-great-great-grandfather of General Benjamin Harrison, of Indiana, the next president.

The REPUBLICAN nomination of Governor Foraker, for president in 1892, was seconded by Hon. George C. Rawlins, Monday night, in a very able manner, and approved, unanimously, by one of the largest crowds that has been seen in this city for years. It is a "go."

The north is solid for Protection to American industries. It must, therefore, be sold for Harrison and Morton. The south is not solid for free trade. The new south, which is gradually growing, is for protection.

Mr. Frank G. Norton writes to the REPUBLICAN that "Grover Cleveland is the noblest living American." Mr. Norton has sized himself up pretty accurately. We suspected that he was about that style of man.

Harrison has a daughter who is as handsome and lovable as any lady who has yet occupied the white house.—Youngstown Telegram.

The Telegram can say that, also, of Mrs. Harrison, who is yet young, as well as handsome and lovable.

Hon. Henry Nichols, elected to congress from a North Carolina district as a labor candidate, says Harrison and Morton will get a heavy labor vote in his state. We hope it will be fairly counted.

There was a Foraker lot crowded with people in Springfield, Monday night.

"A Word to the Wise is Sufficient." Catarrh is not simply an inconvenience, unpleasant to the sufferer and disgusting to others—it is an advanced outpost of approaching disease of worst type. Do not neglect its warning; it brings deadly evils in its train. Before it is too late, use Dr. Sage's Catarrh Remedy. It reaches the seat of the ailment, and is the only thing that will cure you. You may dose yourself with quack medicines till it is too late—till the streamlet becomes a resistless torrent. It is the matured invention of a scientific physician. "A word to the wise is sufficient."

Admiral Hornby says that England would require at least 180 cruisers to protect her merchant vessels from the enemy's cruisers, and that she has but 43.

Peculiar.
In the combination, proportion and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in its phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength and creating an appetite.

Phillips Brooks and ex-President Hayes will speak from the same platform in Boston, July 14, at the National Prison Reform association.

The lumber from which the galleons was constructed on which John Brown was executed is owned by a resident of Harper's Ferry, who is waiting for some relic hunter to come and take it off his hands. The modest sum of \$1,500 is asked for it.

It might occur to some of the great railroad men of the west to examine ravine bridges after "a terrible rain" to determine whether those structures are still standing. It would be much cheaper than smashing up two or three trains.

THE IRON WORKERS.
NO CHANGE IN THE SITUATION AND THE LOCKOUT CONTINUES.

Much rejoicing over More Signatures to the Amalgamated Scale.—The Manufacturers Determined Not to Yield and Will Stand Together—Neither Side Shows Signs of Weakening.

PITTSBURGH, July 3.—Two more signatures to the Amalgamated scale were reported yesterday. They were the Laughlin Iron Company, of Lockport, Pa., and the Findlay Iron Company, of Findlay, O. This news was the occasion of considerable rejoicing about the workers' headquarters, but according to the manufacturers, the action of these firms was discounted before the lock-out began.

The shut-down does not affect every workman in and around the mills, as has been reported. Many of those departments that are not governed by the Amalgamated Association's scale, will continue in operation. Jones & Laughlin employ 4,000 men at this time, but only 2,000 of them are affected. The others are employed in the machine shops and other departments of the mill. They will continue at work as long as they will, and if trade will warrant, an effort will be made to purchase material in the east.

The pipe mill of A. M. Byers & Co. will continue in operation, although their rolling mill is closed. About 300 men are employed here, about two-thirds of the entire number.

In an interview, yesterday, B. F. Jones, of Jones & Laughlin, reiterated the statement that the manufacturers would not start their work at any other terms than have been submitted to them. Said he: "At our mills, we will continue to operate the machine shops until the stock of iron is exhausted, when, if trade will warrant, will purchase abroad. All the eastern mills are in operation, and the price for bolting is \$1.50 per ton less than is demanded by the Amalgamated Association. We merely offered them the same wages as were paid in 1888, 87, when the price of bar iron was higher than it is at present. Some of the men seem to believe that a two months' shut-down will affect them, as they will miss ten months' what would be paid in twelve. This is not the case, as eastern firms will supply the trade in the west that could be supplied by western mills if the men accept the manufacturers' scale. I do not care to make an estimate, but I think fully \$200,000 in wages will be lost in Pittsburgh every day during the strike. A great deal of money that might be earned here in Pittsburgh will go east."

A telegram from Youngstown says there is no change in the situation at that place, the mills being idle and many employees leaving to enjoy a vacation elsewhere. At the sheet mills of Sumner & Co. one of the company said this morning that they would pay scale prices and the employees would be willing to resume work on Thursday morning, if there was no interference from others of the Amalgamated Association. The company has never signed a scale, though paying scale wages.

A tour of the mills shows the lockout hereabouts to be more complete than was expected. All the mills but the few in union concern and the machine shops of Jones & Laughlin, are closed down. The works of Oliver Bros. & Phillips, who signed the scale, are also shut down, but operations will be resumed within a few days. The iron workers explain the general suspension by saying that many of the mills have closed their doors, and the few firms signing the scale as an evidence that it is only a question of a comparatively short time until they follow their example.

There is intense interest as to what Carnegie, Phillips & Co., will do. All of their works are shut down to-day, and no scale has been signed by them. It is probable that representatives of the firm will hold a conference with Amalgamated officials this afternoon, and a reduction, especially at the Homestead Steel Works, will be insisted upon. "Neither side shows any signs of weakening. The Western Iron Association has appointed a committee of four to take charge of the matter, and all of the firms of the association have assured the committee that they will stand firmly by their resolution not to sign a scale unless a reduction of wages is accepted."

JERSEY REACHING OUT.
She Would Make Bedloe's Island Part of the Mainland.
New York, July 3.—A special joint legislative committee was appointed last winter at Trenton, and Senator Wm. D. Edwards was made chairman of it. The committee was instructed to investigate, in conjunction with the State Republican Commissioners the project of extending the shore from Communipaw to the lower portion of Greenville 3,000 feet in the New York Bay. Three or four meetings, at which nothing of importance was done, have been held thus far, and on July 12 another meeting of the committee will take place. When it is expected that some definite action will be suggested. Recently at the solicitation of some of the shore owners the filling line was extended nearly one mile and a half. This did not give the deep water wanted, for the mean depth is about seven feet and the owners wanted not less than thirty feet of water. A petition was sent to the legislature asking the Government to dig along this frontage a channel 400 feet wide. It was shown the Government that if this were done the reparation owners would make the shore front valuable by the erection of large docks, wharves and storage houses. The assurance received from congress was sufficient to cause some of the shore owners to begin to fill in, and now the large peninsula of made land extends out in the bay.

Congress adjourned, however, without giving anything for the scheme, and when they learned that no appropriation would be made they ceased to fill in and appealed to the legislature to grant them the right to do so. They went further in the bay than the exterior line as now located. If this should be done the Statue of Liberty on Bedloe's Island would, in a short time, be located on main land and a portion of New Jersey and the width of the beautiful bay would be decreased about one-half, but the shore owners would have deep water and large aqueduct to their real estate.

It is for the purpose of co-ordinating this matter that the joint committee will soon hold a meeting. There appears to be much that antagonizes this last scheme, but the strongest opponent is perhaps the State of New York, which it is said, will endeavor to interest the National Government in an effort to prevent New Jersey from making the acquisition to her shores.

Children Under a Falling Tree.
LITTLE ROCK, Ark., July 3.—A fatal accident is reported from Columbia county. Two children of Jacob Brown, aged fourteen and ten respectively, were playing in the woods, when a storm arose and a tree blew down, killing one of the children instantly and fatally wounding the other.

A Disasterous Fire at Reading, Pa.
READING, Pa., July 3.—The Reading Hardware Works, located along the Schuylkill river, in this city, was totally destroyed by fire last night, causing a loss of over a quarter of a million dollars. By midnight the entire structure was in ruins. About 450 men are thrown out of employment. The works will be rebuilt at once.

A Wreck and a Brakeman Killed.
VALPARAISO, Ind., July 3.—A serious accident occurred on the Grand Trunk railroad, near here, resulting in the wrecking of an engine and ten freight cars, and the killing of Stephen Buel, a brakeman, of Seokis, Mich., and the maiming of a fireman. The accident was caused by the freight engine striking some horses on the track, three of which were killed.

Cost of the Chicago Convention.
CHICAGO, July 3.—The total cost of the Republican National Convention, it was ascertained yesterday, is \$30,000. A deficit of \$700 exists, but it will be readily subscribed. The three largest items of expense were \$7,000 to the Auditorium Association for hall rent, \$2,000 for electric lighting, and \$5,000 for entertaining the members of the National Convention.

A Bad Sign—Indorsing a worthless note.

DYSPEPSIA
It is that misfortune which we suddenly become aware that we possess a disordered stomach called a stomach. The stomach is the reservoir from which every fiber and with it is soon felt throughout the whole system. Among the most common symptoms of dyspepsia are indigestion, flatulence, a bilious temperament, subject to sick headaches, these being the most common symptoms of dyspepsia. While the stomach and nervous are abandoned to gloomy forebodings. Some dyspepsia are wonderfully forgetful; others have great irritability of temper. Whatever form dyspepsia may take, one thing is certain.

The Underlying Cause is in the LIVER.
and one thing more is equally certain, no one will remain a dyspeptic who will

Acidity of the Stomach, Expel Foul Gases, Alleviate Irritation, Assist Digestion, and at the same time Start the Liver to Working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised.
